

Dear Kristin,

I am writing to let you know about a national survey for AATF members regarding the use of new technologies for teaching and learning French. The survey was developed by Lara Lomicka Anderson, Chair of the AATF Commission of Telematics and New Technologies, and Lawrence Williams, a member of the Commission.

An announcement about the survey was placed in the most recent issue of the AATF's National Bulletin, and we have decided to contact Chapter Presidents in an effort to make members aware of the survey and encourage them to participate. The results of the study will be used to make recommendations to the AATF President and Executive Committee, and the survey will allow the Commission to develop useful documents and reports for AATF members.

Please feel free to contact me if you have any questions about the survey.

We would greatly appreciate your help in passing along the survey URL to your members.
