12:30 - 1:45 TR
2240 Carroll Building

Ever think that sports are more important to society than we realize? Then this is the class for you!

This class is designed to teach students to think critically about sport in society. It is my hope that students enrolled in this course will become more aware of the power issues embedded in sports. They will learn to recognize the ways that sport reflects society, including relationships of inequality in society, as well as ways that sport has the potential to transform society.
